SAFETY INFORMATION

MEATER 2 PLUS

Charger Battery Alkaline	AAA
Charger Battery Nominal Voltage	1.5V
Charger Battery Size	AAA Single cell and measures 10.5 mm (0.41 in) in diameter and 44.5 mm (1.75in) in length
Charger Battery Quantity	1
Charger Model Number	MT-CP20
Probe Model Number	MT-PR20
Probe Battery Nominal Voltage	3.4V
Probe Capacity	3mAh
Operating Frequency	2402-2480MHz
Importer Name & Address	**Appliton Labs Ltd.** 86 Commercial Square, Leicester, LE2 7DR, UK **MEATER,** 3776 Cahuenga Blvd Studio City, CA 91604 United States **Appliton Labs GmbH** Frei-Otto-Straße 4, 80797 München, Deutschland

Read All Instructions Before Using

Please read this entire manual before using your MEATER product. Failure to follow the instructions in this manual may result in damage to property, injury to persons, or even death. If you are assembling this product for someone else, please leave this manual for the owner to read and save for future reference.

WARNING

Burn Hazard

Failure to follow the warnings below may cause the MEATER probe to overheat and lead to serious injury or burns.

Always insert the MEATER probe past the safety notch this minimum distance to avoid product damage and personal injury.

DO NOT use the probe above cooking at temperatures above 932° F / 500°C.

DO NOT place MEATER charging unit directly on the grill, cover, or too close to any hot surface.

DO NOT remove the probe while it is exposed to heat. The probe must be inserted in and removed from food away from all heat sources.

Always use eye protection when removing a probe that has exceeded the maximum temperature it can come in contact with hot chemicals or direct flames.

If the probe fails into the fire or direct heat source, turn off the cooking appliance and close the lid immediately. Allow the probe to cool completely before handling.

DO NOT allow the probe to come in contact with hot chemicals or coals.

The probe will be hot during and after use. Wear heat-resistant gloves when handling the probe.

Foodborne Illness Hazard

Consuming raw or undercooked meats, poultry, or seafood may increase your risk of foodborne illness. Always cook your food to USDA safe temperatures.

CAUTION

Product Damage Hazard

Always insert the MEATER probe past the safety notch to avoid damage.

DO NOT use the probe in a microwave or pressure cooker.

DO NOT place the MEATER charging unit on any hot surface.

DO NOT drop the probe onto hard surfaces.

DO NOT use cleaning products containing alcohol, ammonium, benzene, or abrasives, all of which could damage the device.

DO NOT run the probe under cold water immediately after cooking. Let the probe cool down prior to washing.

DO NOT exceed the probe's internal sensor limit of 212° F / 100°C or the ambient sensor limit of 932° F / 500°C. Temperatures above these maximums may damage the probe.

DO NOT expose the MEATER charging unit to moisture. The charger unit is not a submersible device, and do not put it in the sink.

Store the probe in a dry, cool place when not in use. This product is only designed for use in food. Use it only for its intended purpose.

Sharp Point Hazard

Always keep the MEATER probe pointed away from fingers and body. Contact may result in injury. Keep out of reach of children.

Getting Started

Before using your MEATER 2 Plus, ensure the product has been charged and you have reviewed the important safety information on this page.

If you need any assistance using your MEATER 2 Plus, visit our Support Website or browse our guides, please check out our Support Wizard and FAQ. If you need to speak to a member of our customer support team, you can contact the Support Wizard to help navigate you to the correct team.

Business enquiries, press and influencers

What is the maximum temperature MEATER can be used at?

The maximum temperature the ambient tip of the MEATER probes can withstand is 932° F (500°C).

The maximum temperature the internal temperature sensor can withstand is 212° F (100°C).

To ensure the safety of the probe, the MEATER app will alert you when you get too close to these limits.

Make sure to always insert the MEATER probe into your meat past the safety notch to avoid damage to the internal sensor.

Important Safety Information

Charcoal Grill Cooking

Always insert the MEATER probe past the safety notch.

Ensure the probe is firmly inserted and not loose before cooking.

DO NOT cook with MEATER if the probe can't be inserted past the safety notch.

Always wash your hands after handling raw meat.

Place the meat over indirect heat on your grill.

DO NOT remove the probe while it is exposed to heat. The probe must be inserted in and removed from meat away from all heat sources.

Always use eye protection when removing a probe that has exceeded the maximum temperature or come in contact with hot chemicals or direct flames.

Carefully remove the meat from the grill when prompted by the MEATER app.

Ensure the ambient temperature has returned to safe levels before removing the probe.

If the probe is difficult to remove, pull and twist the ambient end. **DO NOT** bend the probe against the meat.

Once the probe is removed, you can immediately begin cooking with the meat above the coals or your grill for a delicious finish.

Once your meat is seared, serve and enjoy!

Hereby, Appliton Labs Ltd declares that the radio equipment type MEATER 2 Plus (MT-CP20) & MEATER 2 Probe (MT-PR20), MT-PR20 is in compliance with Directive 2014/53/EU.

The product complies with the Radio Equipment Directive and applicable standards, as well as the food contacting requirements LFGB.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth® SIG, Inc. and any use of such marks by Appliton Labs is under license. Other trademarks and trade names are those of their respective owners.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

IC Statement

This device contains license-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's license-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Cet appareil contient des émetteurs / récepteurs exempts de licence qui sont conformes au (x RSS (s) exemptés de licence d'Innovation, Sciences et Développement économique Canada. L'exploitation est autorisée aux deux conditions suivantes:

(1) Cet appareil ne doit pas provoquer d'interférences.

(2) Cet appareil doit accepter toute interférence y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

IMPORTANT NOTE
IC Radiation Exposure Statement

This equipment complies IC RSS-102 radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Cet équipement est conforme aux limites d'exposition aux rayonnements IC établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

Limited Warranty and Return Policy

Appliton Labs hereby warrants that the MEATER Plus is free from defects in parts, materials, and workmanship under normal use and maintenance for a period of two (2) years if purchased in the EU, Great Britain, Canada, Australia, and New Zealand, and one (1) year in the USA and all other countries from the date of original purchase. This warranty does not include shipping charges associated with any warranty parts or products.

Appliton Labs shall not be liable under this or any implied warranty for incidental or consequential damages. This warranty gives the retail customer specific legal rights, and the customer may have other rights which vary by state and country.

This warranty shall be void if the MEATER product is not assembled or operated in accordance with the provided user instructions; the product is resold or traded to another user; components or accessories not compatible with the product have been used; the product has been used in commercial or food service applications; or the product has been damaged by misuse, abuse, or neglect.

To process a warranty claim, Appliton Labs may require proof of your purchase. You should retain your sales slip or invoice.

Full warranty and return policy can be found on our online website, **meatercom/warranty-returns**.

Full company policies can be found on our online website, **meatercom/support**, and supersedes any information found in this user guide.

Should any repairs or servicing under this warranty be required by you during the limited warranty term, please contact the Customer Happiness Team at **meatercom/support**.

Recycling and WEEE

The below section details MEATER's compliance with WEEE disposal of waste electrical and electronic equipment.

Austria
Österreich (Ex-Recht in nationales Recht umgesetzt)
Informationen zu Ihren Elektro- und Elektronikgeräten aus privaten Haushalten bestehen an öffentlichen Sammelstellen zurückgegeben werden können.
Elektro- und Elektronik-Altgeräte dürfen nicht mit dem gemischten Siedlungsabfall entsorgt werden, sondern müssen bei den dafür vorgesehen Sammelstellen abgegeben werden. Batterien und Akkumulatoren müssen vor der Entsorgung von Altgeräten entfernt werden. Dies will zu einer effizienteren Rückgewinnung und Recycling der Rohstoffe beitragen und Umweltverschmutzung vermeiden. Sollten Sie Fragen haben, wenden Sie sich bitte an Ihre Gemeinde oder Ihr Müllabfuhrunternehmen. Sie können auch Informationen über die getrennte Sammlung gefährliche Bestandteile der Geräte beim FCKW oder Quecksilber) erlaubt beherbergt und somit negative Auswirkungen auf die Umwelt und die menschliche Gesundheit verursachen kann. Informationen über Rücknahmestellen können Sie bei Ihrer Gemeinde oder Ihrem Müllabfuhrunternehmen erhalten. Sie können auch Informationen über die Sammelstellen erhalten Sie auf folgender Website: https://secure.umweltbundesamt.at/eear/registerstellungEAGsammelstellenSuche.do.
Elektro- und Elektronikgeräte aus privaten Haushalten sind von dem kostenlosen Rücknahme verpflichtet. Diese Geräte können bei allen unsere Link Lieferanten Sammelstellen abgegeben werden und dürfen nicht über den Hausmüll entsorgt werden.

Germany
Verpackungsgesetz (Lucid - ElektroNorm 2579)

Batterieregelerung: DE59916645

Elektro- und Elektronikgeräte
Informationen für Nutzer in Haushalte
Das Elektro- und Elektronikgesetz (ElektroG) enthält eine Vielzahl von Anforderungen an den Umgang mit Elektro- und Elektronikgeräten. Die wichtigsten sind hier zusammengefasst.
1. Kennzeichnung mit durchgestrichener Tonne
Elektro- und Elektronikgeräte, die zu Abfall geworden sind, werden als Altgeräte bezeichnet. Besitzer von Altgeräten haben diese einer unsortierten Müllgesellschaft getrennten Erfassung zuzuführen. Altgeräte gehören insbesondere nicht in den Hausmüll, sondern in spezielle Sammel- und Rückgabesysteme.
2. Batterien und Akkus entfernen
Altgeräte müssen Batterien und Altakkumulatoren, die nicht von Altgerät umschlossen sind, sowie Lampen, die zerstörungsfrei aus dem Altgerät entnommen werden können, im Regelfall vor der Abgabe an einer Erfassungsstelle von Altgerät zu trennen. Dies gilt nicht, soweit Altgeräte einer Vorbereitung zur Wiederverwendung unter Einhaltung einer öffentlich-rechtlichen Entsorgungsträger zugeführt werden.
3. Möglichkeiten der Rückgabe von Altgeräten
Besitzer von Altgeräten aus privaten Haushalten können diese bei den Sammelstellen der öffentlich-rechtlichen Entsorgungsträger oder bei den von Herstellern oder Vertreibern im Sinne des Gesetzes über die Rücknahme, Entsorgung von Elektro- und Elektronikgeräten (Elektrogesetz - ElektroG) eingerichteten Rücknahmestellen oder bei Vertreibern unentgeltlich abgeben. Wenn ein neues Gerät an einen privaten Haushalt ausgeliefert wird, kann das gleichartige Altgerät auch dort unentgeltlich zurückgegeben werden, dies gilt bei einem Verhältnis unter 1:1 (Anzahl der Altgeräte zu Anzahl der neuen Geräten). Vertreiber haben Altgeräte, die keine äußeren Abmessungen größer als 25 cm haben, auf Verlangen des Endbenutzers im Einzelhandelsgeschäft oder „Großgeräte" Batterien mit mindestens einer Kantenlänge von 25 cm haben, zurückzunehmen.
4. Datenschutz-Hinweis
Altgeräte enthalten häufig sensible personenbezogene Daten. Dies gilt insbesondere für Geräte der Informations- und Telekommunikationstechnik wie Computer und Smartphones. Bitte beachten Sie in Ihrem eigenen Interesse, dass für die Löschung der Daten auf den zu entsorgenden Altgeräten jeder Endbesitzer selbst verantwortlich ist.
5. Symbol für Altgeräte mit durchgestrichener Mülltonne
Das auf Elektro- und Elektronikgeräten regelmäßig abgebildete Symbol einer durchgestrichenen Mülltonne weist darauf hin, dass das jeweilige Gerät am Ende seiner Lebensdauer getrennt vom unsortierten Siedlungsabfall zu erfassen ist.

Denmark
Bortskaffelse af elektronisk udstyr (EEE) Indbyrdede materialer komponenter og stoffer, der kan være farlige og skadelige for menneskers sundhed og for miljøet, når affaldet af elektrisk og elektronisk udstyr (WEEE) ikke bortskaffes korrekt.
Produkter, der er mærket med nedenstående overstregede skraldespand, er elektrisk og elektronisk udstyr. Dette indebærer skraldespand symbolerer, at affald af elektrisk og elektronisk udstyr (WEEE) ikke må bortskaffes sammen med husholdningsaffald.
Til dette formål har alle producenter etableret tilbagetagningsordninger, hvor affald af elektrisk og elektronisk udstyr gratis kan afleveres af borgerne på genbrugsstationer eller andre indsamlingssteder eller hentes direkte fra husholdninger. Nærmere information skal indhentes hos kommunens tekniske forvaltning.

Brugere af elektrisk og elektronisk udstyr må ikke bortskaffe affald af elektrisk og elektronisk udstyr sammen med husholdningsaffald. Brugere skal benytte de kommunale indsamlingsordninger for at minimere den indvirkninger bestående i forbindelse med bortskaffelse af affald af elektrisk og elektronisk udstyr og evig muligheterne for genbrug, genvindelse og nyttiggørelse af affald af elektrisk og elektronisk udstyr.

Ireland
WEEE Number - 03364IE
Waste Electrical and Electronic Equipment (WEEE) is taken back free of charge on a one-for-one, like-for-like basis. Waste batteries including rechargeable batteries are taken back free of charge. You are not obliged to make any purchase when returning old batteries. Each local authority must also accept batteries free of charge. Batteries must not be disposed of with household waste. Batteries must be recycled and should not be placed in any of your household bins. Make sure you always recycle all your old electrical goods and batteries.

Opening Hours: Monday-Thursday 8:30am-4.30pm | Friday 8.30am-4.30pm

Declaration of conformity
We, Appliton Labs GmbH, declare under our sole responsibility that the product mentioned above complies with the essential requirements of the stated EU Directive. The EU Declaration of Conformity can be found here - https://meatercom/ce-declaration/

Disposing of the packaging
Dispose of the packaging separated into single type materials. Dispose of cardboard and carton as waste paper and film via the recyclable material collection service.

Disposing of the product
Applicable in the European Union and other European states with systems for the separate collection of reusable waste materials.
The symbol on the product or on the accompanying documents indicates that your old equipment will not be treated as household waste at end of last devices separately from the household waste, e.g. at a collection point (or via the return system). This ensures that old devices are recycled in a professional manner and also rules out negative consequences for the environment. For this reason, electrical equipment is marked with the symbol shown here.

Batteries and rechargeable batteries Used batteries do not belong in the household waste at the end of their use and are required by law to bring all batteries and rechargeable batteries, regardless of whether they contain harmful substances" or not, to a collection point run by the communal authority or borough or to a point of sale where batteries of this type are sold. Disposal via household waste is prohibited.
Batteries can be recognized by the crossed-out garbage can symbol shown here and under which name that it is in an unchanged state. Labelled with: Cd = cadmium, Hg = mercury, Pb = lead
